MOTION BY SUPERVISOR ZEV YAROSLAVSKY

June 29, 2004

AMENDMENT TO ITEM 142-B

In addition to written information shared with County and City parks personnel regarding West Nile Virus, a program of in-service training for these staff would further strengthen the County's response to this important public health threat.

I, THEREFORE, MOVE that the Public Health Director of the Department of Health Services, in conjunction with the Director of Parks and Recreation and appropriate County Vector Control Districts, organize a training program on the subject of West Nile Virus. The training should be provided in the near future at appropriate location(s) for the purpose of orienting key personnel of public parks and other outdoor recreation facilities to the disease; and providing direction on measures that can be taken to reduce the threat of the disease to County residents using these facilities.
